

Character-Building in Asia

Cadets from the U.S. Military Academy and Valley Forge Military Academy participated in ACCTS' annual Exploration Asia trip to China and Japan in July. Led by staff members Rick Ryles, Melissa Ryles, and Carson Tavenner, these trips take U.S. military cadets to other nations' military academies and cultural sites, while also providing opportunities to meet military personnel, including active-duty believers when possible, in each nation. Additionally, each day includes lessons and discussions about character development. We're thankful for the hosts in each nation who made this year's trip an excellent character-building experience for the cadets!
