

Discipleship and Development in Israel

Indigenous Christians in Israel are carrying out an effective ministry to young men and women who are about to begin their time of conscription. Matan from Israel shares, “I am very excited for the opening of the 2017 program, which will run for approximately two and a half months and will begin on the first of August. The program focuses on discipleship, leadership and development of 20 youth, who are about to join the army and become the next generation of leaders in the body of Christ in Israel. I would sure appreciate your prayers for the program, and also wisdom for me and for the team in all of our preparations.”
